

FLUKE®

Solar – Commercial and Residential

Solar energy is becoming one of the world's fastest-growing sources of power – making the first time that solar energy's growth has surpassed that of all other fuels. Solar technology is improving, and the cost of going solar is dropping rapidly. Solar technicians and managers need to be able to install and service equipment quickly, safely and efficiently for both residential and commercial clients.

Fluke tools perform like champions in the most challenging commercial and residential solar environments.

You can depend on Fluke tools to keep your world up and running.

Solar Advisor

Focus:

- Mechanical and electric design
- Troubleshooting

Job needs:

- ▲ Irradiance meter
- Digital multimeter
- Clamp meter
- Temperature/Thermal

Operations and Maintenance Manager

Focus:

- Lead preventative maintenance
- Troubleshooting
- Monitoring

Job needs:

- ▲ Irradiance meter
- Digital multimeter
- Clamp meter
- Temperature/Thermal
- Insulation and power quality
- ★ Battery analyzer
- Insulated hand tools
- ▼ Earth ground

Solar solutions

Amprobe	Electrical Measurement Tools					Insulation and Power Quality		
Irradiance meter	Digital multimeter	Digital multimeter	Thermal multimeter	Clamp meter	FC wireless multimeter kit	Insulation tester	Insulation tester	Insulation tester
								
Solar 100	87V	179	279 FC	376 FC	v3003FC Kit	1507	1587 FC	1555 FC

Solar Technician/Installer

Focus:

- Mechanical and electrical design
- Conduct commissioning
- Troubleshooting

Job needs:

- ▲ Irradiance meter
- Digital multimeter
- Clamp meter
- Temperature/Thermal
- Insulation and power quality
- ▼ Earth ground
- Insulated hand tools

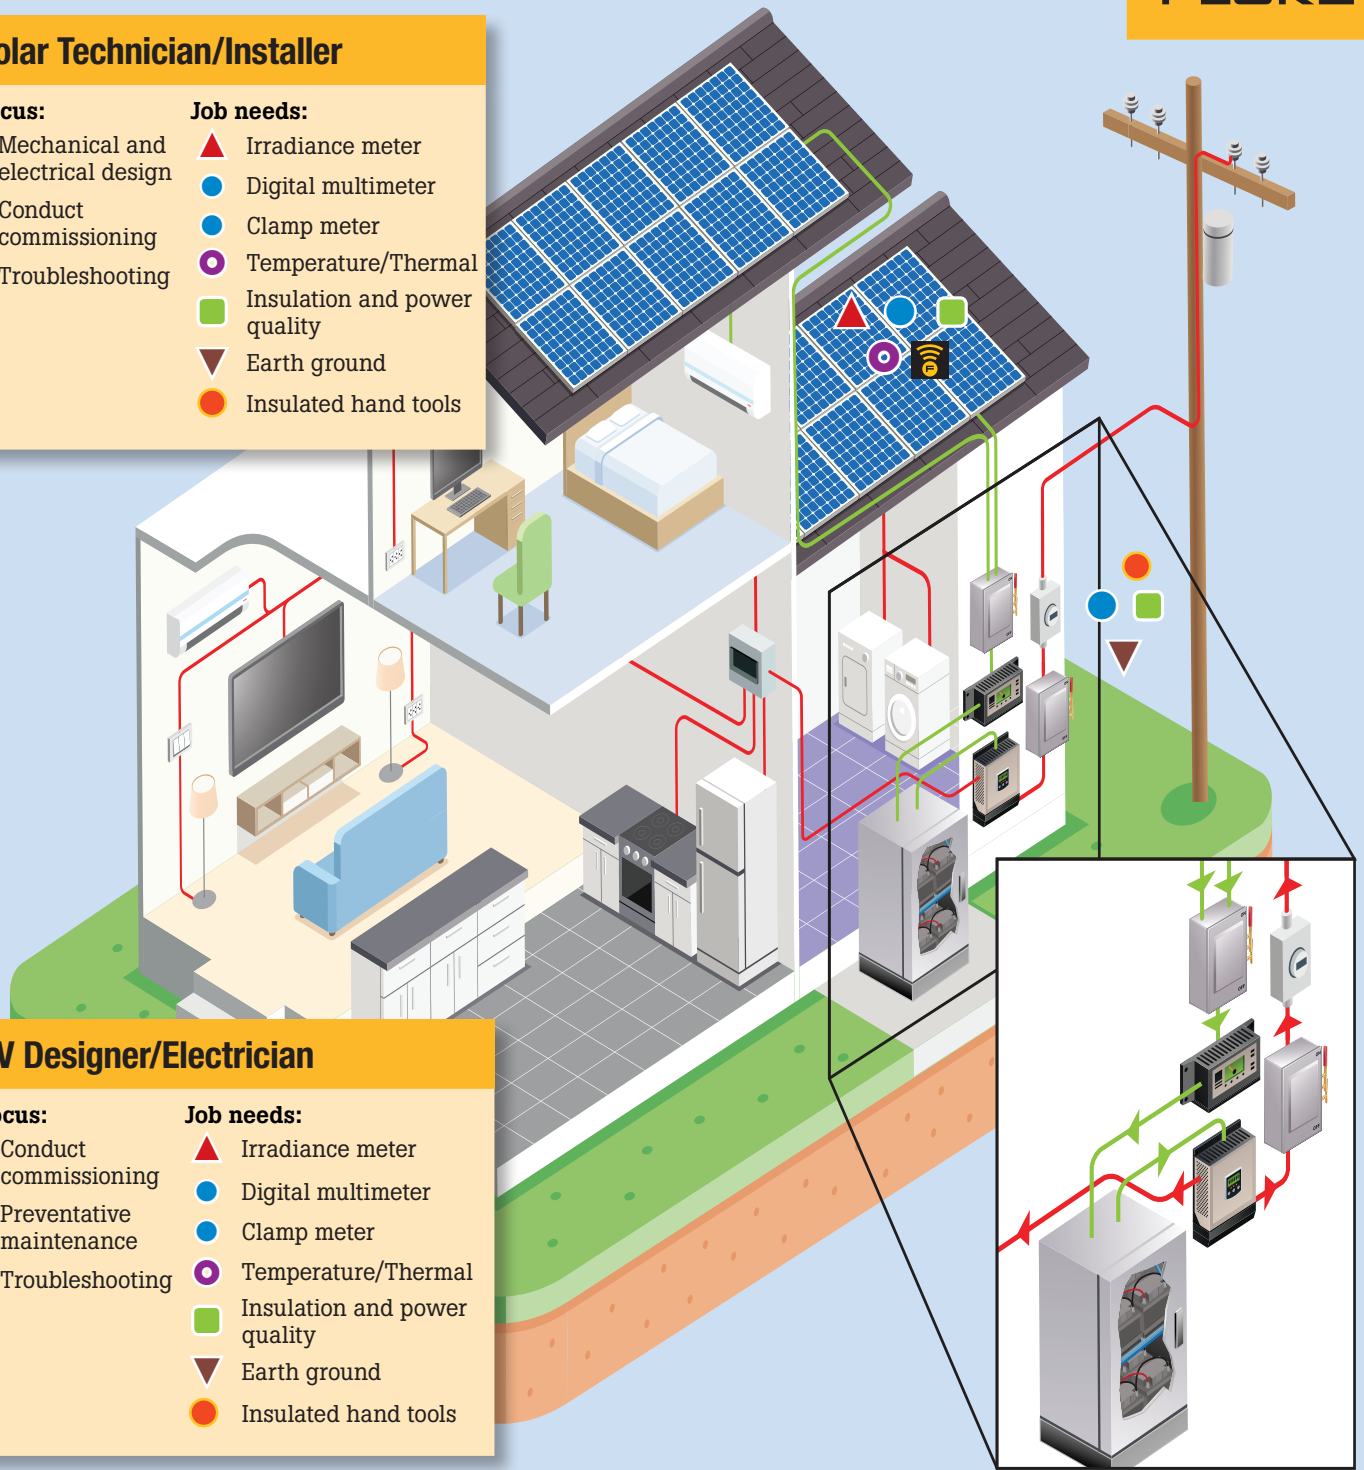

PV Designer/Electrician

Focus:

- Conduct commissioning
- Preventative maintenance
- Troubleshooting

Job needs:

- ▲ Irradiance meter
- Digital multimeter
- Clamp meter
- Temperature/Thermal
- Insulation and power quality
- ▼ Earth ground
- Insulated hand tools

Recommended solar power solutions

Fluke Connect

Best suited for:

- Simplifying preventive maintenance programs
- Seamlessly integrating tool data into software
- Diagnosing asset health in the field
- Cloud-based data sharing

Clamp meters

Best suited for:

- Verifying the presence of AC/DC load current, voltage and continuity
- Measuring 1000 A AC/DC (2500 A AC with iFlex) in combiner boxes, inverters, breakers or disconnects
- Measuring loads and line frequency in circuits

Power quality analyzers

Best suited for:

- Troubleshooting and preventing problems in power generation, transmission and distribution systems
- Conducting load studies to reduce energy usage

Insulation testers

Best suited for:

- Wide range of tests including simple spot checks, timed tests and breakdown tests
- Insulation resistance testing up to 10 kV
- Use with switchgear, conductors and cables

Digital multimeters

Best suited for:

- Combiner box and inverter installation and troubleshooting
- Quick voltage detection
- Environments with both AC and DC or ghost voltages

Earth ground

Best suited for:

- Confirmation that the earth resistance meets safety compliance
- Validation that the grounding system has not deteriorated

Thermal imagers

Best suited for:

- Inspection of PV modules for troubleshooting polarity, electrical panels, and breaker panels for detection of "hot spots"
- Monitoring cooling fluid levels such as dielectric oils for transformers

Amprobe, a Fluke company - Irradiance meter

Best suited for:

- Optimize the placement of solar power systems and verify window efficiency
- Measure solar output used to calculate overall energy, efficiency and placement of solar systems

Insulated hand tools

Best suited for:

- 1000 V AC and 1500 V DC
- Critical part of NFPA 70E

Battery analyzers

Best suited for:

- Troubleshooting and performance testing on stationary batteries and battery banks
- Designed for measurement on stationary batteries of all types
