

A smart speaker with a grey fabric mesh and a glowing blue top ring sits on a dark wood table. In the background, a lamp with a purple shade is lit, casting a purple glow on the wall and the speaker. A white chair back is visible behind the table.

LEDVANCE SMART FOR RESIDENTIAL

December 2019

LEDVANCE.COM

LEDVANCE

The new Smart for Residential portfolio from LEDVANCE offers the comprehensive combination of innovation, quality, reliability and user-friendliness. LEDVANCE provides a suitable solution for a wide range of different needs for smart lighting.

YOUR EXPERT PARTNER FOR SMART LIGHTING

New possibilities with connected light

The market volume of Smart Home is projected to grow rapidly over the next few years. Based on our own studies, more than 60% of Europeans possess a smart product and nearly 40% already own a smart lighting product or plan to acquire one in the near future. And almost half of the end consumers questioned an installer to install their Smart Home products.

Time to take things a step further

Connected light is playing a central role within the living environment of the Smart Home concept and offers new design options for a cozy home and an increased feeling of security. Choose LEDVANCE as your expert partner to take things a step further. The new Smart for Residential portfolio from LEDVANCE offers a comprehensive range to serve the wide variety of your customer needs for different applications – from the living room to the kitchen.

YOUR ADVANTAGES:

High flexibility

The LEDVANCE Smart for Residential portfolio can be controlled by voice or via app – give your customer the choice they need.

Familiar system

Give your customer what they want – the LEDVANCE Smart for Residential portfolio is available with ZigBee 3.0 or Bluetooth technology. Easy set up and control due to familiar interfaces.

Attractive portfolio

For residential applications, which are perfectly designed for the needs of your customer: simple installation, good price-performance ratio and great features e.g. dimmer function, RGB mode.

The LEDVANCE PARATHOM® ZigBee portfolio can be used with an external gateway or even more easily with the latest smart speaker e.g. Amazon Echo Plus, where the gateway is already integrated. Thanks to the latest technology of ZigBee 3.0 a high security standard is guaranteed and enables control from wherever you are.

COZY HOME AND HIGH SECURITY STANDARDS

The PARATHOM® ZigBee portfolio offers the basic functions on/off, dimmable, color change, scene creation, color temperature change (tunable white) as well as more complex functions e.g. wake-up light or home presence simulation in one single, reliable smart lighting solution.¹

LIGHT IN ITS VARIETY

The Smart for Residential portfolio enables the easy creation of different light scenarios - dimmed, from warm to cool white and multicolor for choosing from 16 million colors, with lamps and luminaires and as here with LED Strip

MORE COMFORT WITH VOICE-CONTROL

Intelligent, connected light comfortably controlled via voice commands in 3 easy steps: download relevant partner app, connect to the partner gateway and configure your lights.

¹ Depending on the compatibility of the partner solution. The hardware and software requirements as well as any other requirements of the manufacturer have to be met.

With the PARATHOM® ZigBee portfolio smart lighting can be integrated in already installed or preferred independent and compatible systems.

Compatible Gateways:

- Rexel Gateway
- Philips Hue Bridge
- Deutsche Telekom
- Qivicon Smart Hub
- Schwaiger Gateway
- Alexa Echo Plus
- Alexa Echo Show2
- Samsung SmartThings
- SMART HOME by hornbach
- homee
- Cozify

All technical parameters apply to the entire lamp. Because of the complex manufacturing process for light emitting diodes (LEDs), the specified typical values for LED technical parameters represent only purely statistical variables. They do not necessarily correspond to the actual technical parameters for each individual product which can deviate from the typical value. | ¹ L70/B50 | ² Energy efficiency class (EEC) on a scale of A++ (highest efficiency) to E (lowest efficiency) | ³ You will find further information and the exact guarantee terms and conditions at www.ledvance.com/guarantee

The PARATHOM® Bluetooth portfolio offers a wide range of advantages. Using the Bluetooth technology, it can be controlled via voice or app. Thanks to the common technology of Bluetooth an easy set-up and control is ensured. For an advanced home the PARATHOM® Bluetooth lamps can be integrated in a Bluetooth mesh network via the LEDVANCE SMART+ app.

RELIABLE CHOICE

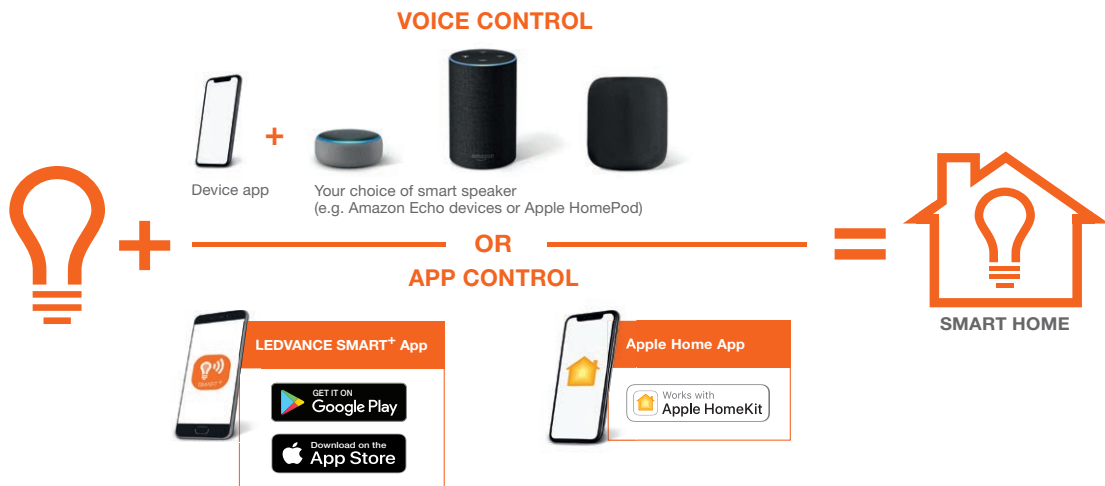

The PARATHOM® Bluetooth portfolio offers the basic functions on/off, dimmable, color change and color temperature change (tunable white) in one single convenient and user-friendly smart lighting solution.

COMFORT THROUGH VOICE-CONTROL

With your choice of different smart speakers the compatible products can be easily controlled via voice command.

EASY SET-UP

Set up in less than one minute with no gateway required and use all functions via app or voice control. Download the LEDVANCE app and configure the Smart Home products via Bluetooth.
